

Those of us who subscribe (PAY) to XM radio benefit from listening to its traffic and weather channels, as well the enjoy the variety that over the air radio no longer provides. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. Just because you screwed up in allowing companies like Clear Channel destroy free radio, doesn't mean that we should again be penalized because they contribute large amounts of money, legally of course, to you. Companies like Clear Channel should be the targets of your scorn, but instead you are going after those of us fed up with what has happened to free radio. Please spend your time on more important issues, such as fining those people broadcasting smut and trash, like Oprah Winfrey, and leave the consumer alone. I respectfully urge you, the FCC, to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I deserve, but can no longer get from over the air stations due to the conglomeration that you wrongfully allowed.

The FCC should not allow companies to monopolize free radio, and other forms of communication. Stop wasting our tax dollars on pointless trips to vegas and enforcing the minorities opinion, and go after the 'beloved' Oprah, for broadcasting porn on tv. Leave my satellite radio alone,
